

NASA Ames at SF Pride 2015 - Directions

Sunday, June 28 11:30 - 15:30

Thank you so much for your participation in the second annual NASA Ames contingent at SF Pride!

We are contingent #124 and will be meeting on Main St. between Market and Mission, in the M1 parade assembly section. Please see the map below.

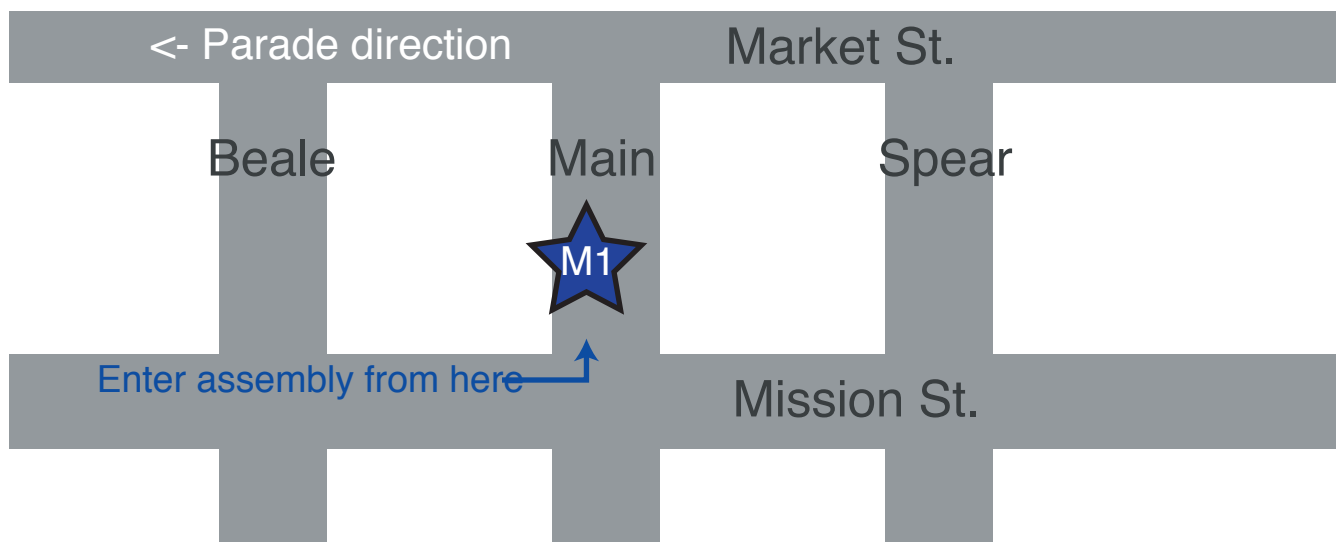

Marchers: please arrive no later than 11:00 am, since it will get very crowded. Contingent monitors: please arrive no later than 10:30 am. Parade vehicles and float crew, please arrive no later than 9:00 am. Don't forget to pack your Ames Pride shirt, comfy shoes, sunscreen, NASA tattoos to hand out and sustenance for the day. The grey Ford C-Max with NASA Ames flags (Ved's car) is the support vehicle and shall have bottled waters and snacks for all marchers during the parade.

Please remember that you are representing NASA officially -- there will be a sizeable press contingent and many cameras. If you are asked a question by media during the event, please direct them to Ved or Tom.

SF Pride also has very important safety rules, which must be followed by all parade participants:

1. Contingent Monitors stay at their wheels at all times, we can rotate out during the parade. If a monitor abandons their wheel, they will pull that vehicle out of the parade.
2. All participants are clean and sober.

Meet at assembly section M1:

More parade route info on back.

Transportation recommendations:

Traffic is expected to be very high with extremely limited parking on the day of the event; we recommend public transportation or carpooling

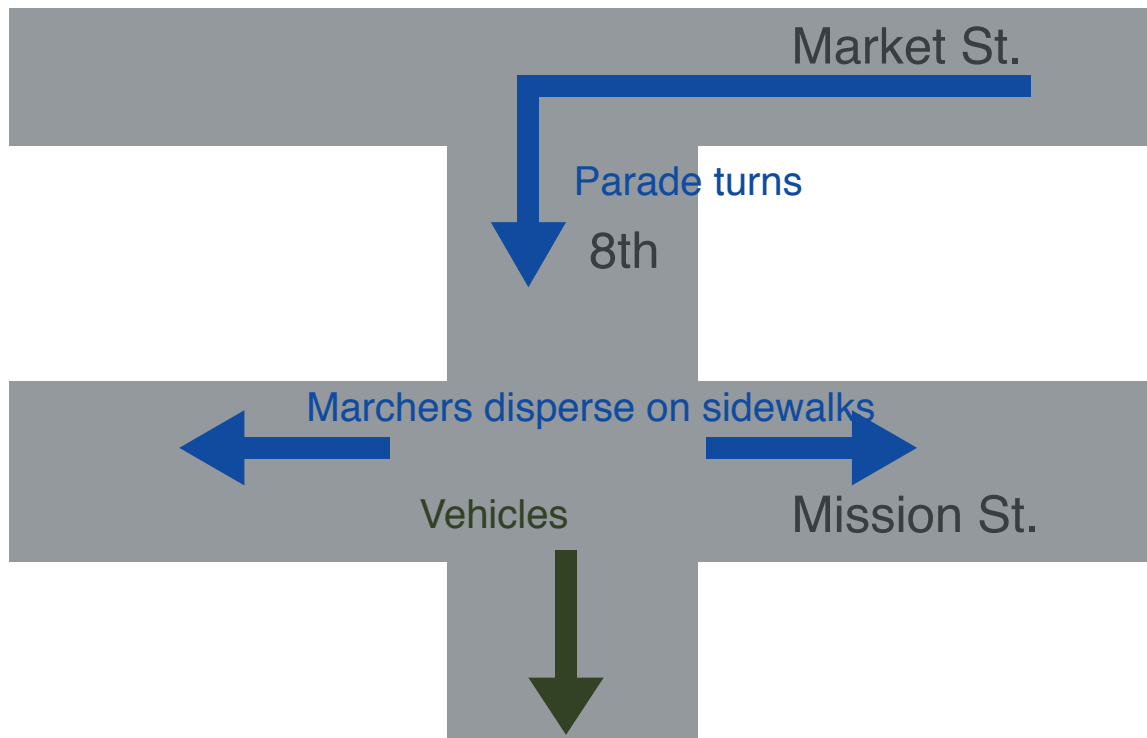

The following BART/MUNI stations service the Parade Route:

- Embarcadero Station (Closest to parade start)
- Montgomery Station
- Powell Station
- Civic Center/UN Plaza

Riders can take Caltrain to the Millbrae Transit Center and connect to BART.

Parade dispersal:

The parade ends at Market & 8th, turning left onto 8th and entering city traffic. Marchers should exit either left or right onto Mission St. and parade vehicles should continue south on 8th as directed by police.

POC: Contact for more information or during the event:
